

**“India’s first-ever NEET-UG learning in AR/VR”**

***“Engaging, Enjoyable, Equitable, Experiential Education”***

**FOR “NEET - UG” PREPARATION**

**ON YOUR**

Presented by

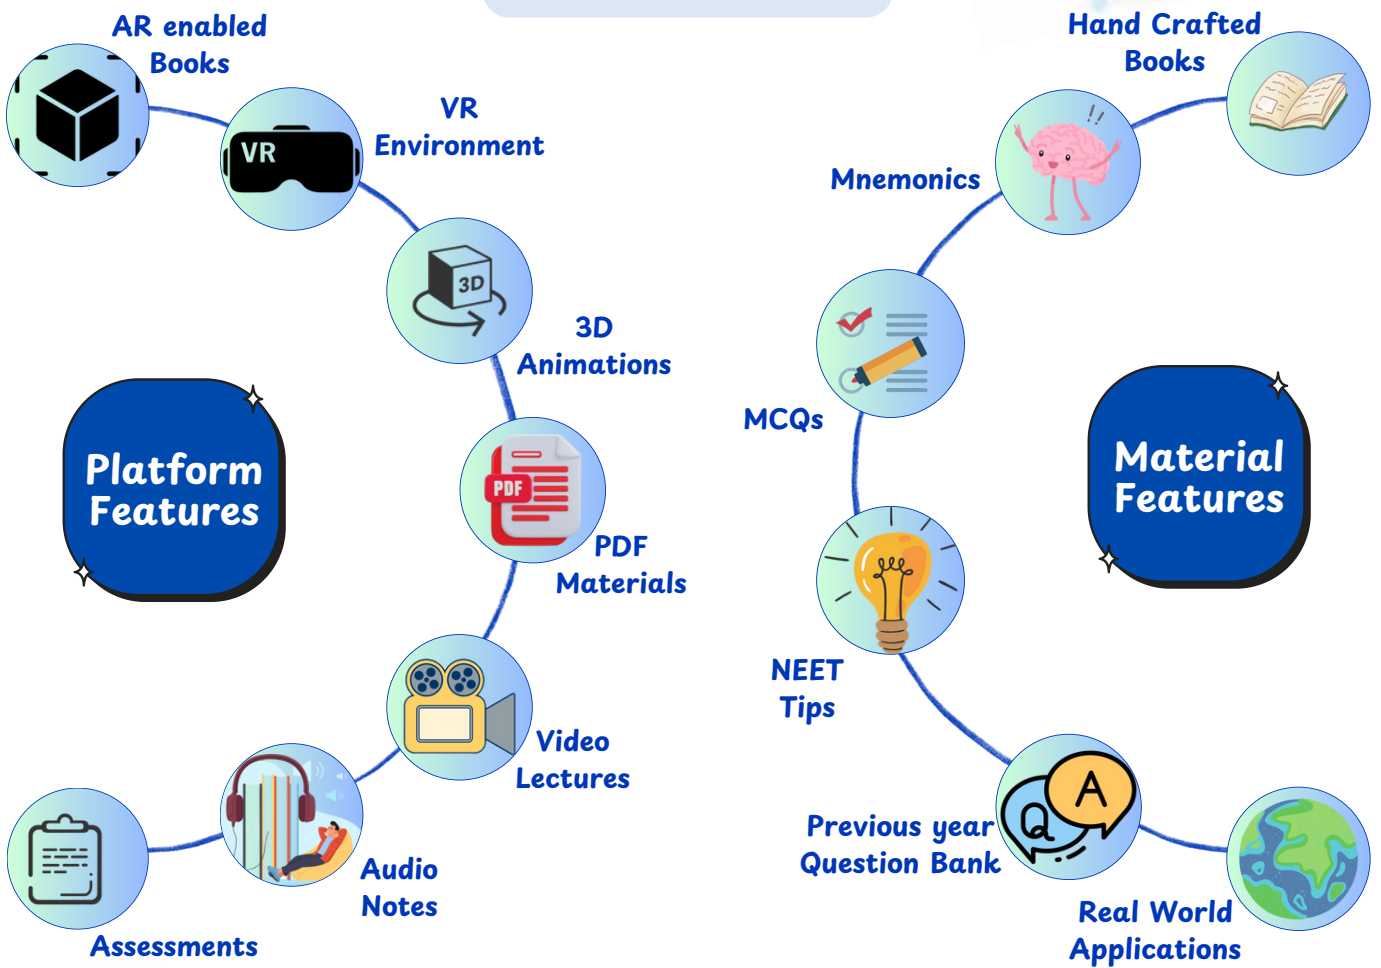

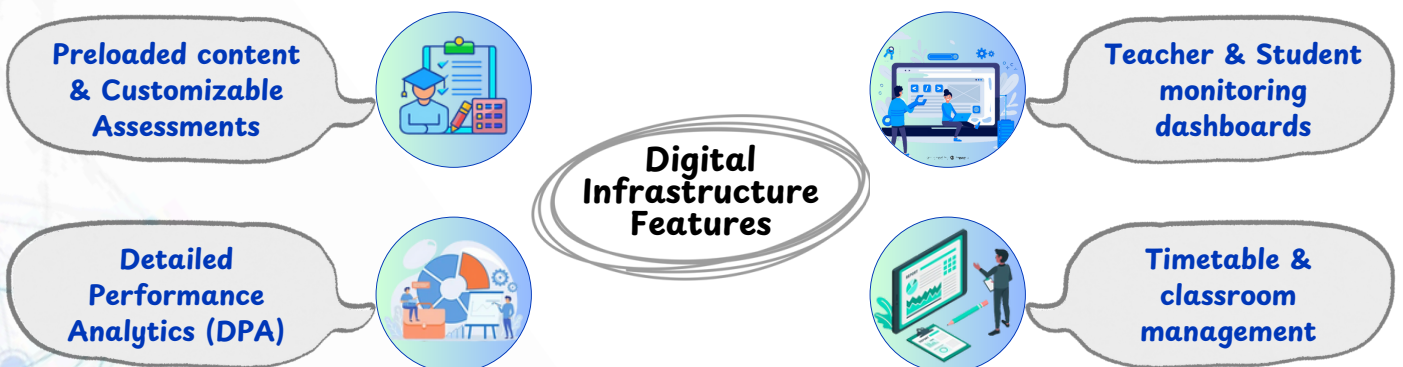

EdXAR is an innovative extended reality (AR/VR) educational tech platform, designed to help students preparing for NEET UG to learn with conceptual clarity by triggering their photographic memory and creative thought. EdXAR provides students with an immersive and interactive learning experience, simplifying complex topics and making exam preparation engaging, experiential and effective. Therefore, improving academic and competitive performance.

## FEATURES

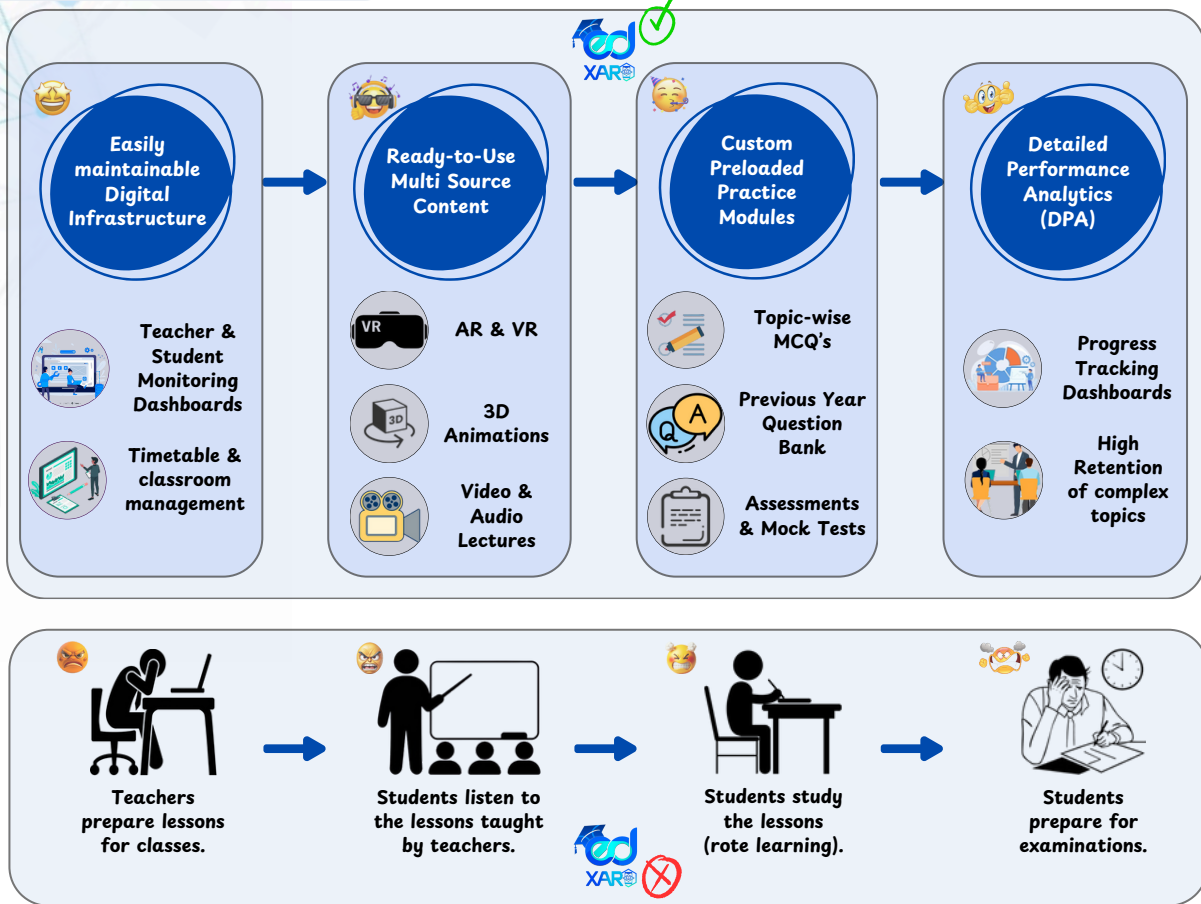

### For Students

### For Institutions

# HOW IT WORKS

**“With EdXAR, Knowledge is not just acquired, but experienced.”**

## BENEFITS

### For Students

- Multi-source content (PDF, Audio, Video & Assessments)
- Detailed Performance Analytics (DPA)
- Gamified learning via 3D animations in AR & VR environments.

### For Schools

- AR/VR integration in your school ecosystem.
- Integrates with existing curricula.
- No need for costly third-party coaching center partnerships.
- Use DPA to make teaching strategies more efficient.

### For Parents

- High-quality education at a highly affordable cost.
- Make your ward's screen time more efficient.
- Monitor your ward's performance.

### For Teachers

- Reduced lesson preparation time.
- Assign assessments with a customizable question bank.
- Schedule and manage classes using digital infrastructure.

## EdXAR aligns with

- **New Education Policy 2020 (23.1-23.9):** Equitable digital access for all students.
- **TN School Education Policy 2023-24 (7.21):** VR libraries in 38 districts for student benefit.
